**F9** is an easy-to-use financial reporting tool that dynamically links **Microsoft Excel** to **Data Pro's Infinity POWER General Ledger** data files. Everything you know about spreadsheets can now be applied to the financial reports you create using **F9**! **F9** does all of this through a dynamic link to the General Ledger, ensuring that all numbers are timely, consistent, and complete. You will never have to manually create and customize your spreadsheets again. With a few simple steps you will be able to create the reports you need quickly and easily. You can manipulate your reports and refresh simply by pressing the **F9** key on your keyboard.

**F9 offers a powerful feature package:**

- Excel-based functionality ensures ease of use
- Formula Calculations eliminate re-keying of numbers
- "Business Intelligence" Reporting offers KPIs, Table and Pivot Table Analysis
- Report Publishing, Drilldown Viewer and Analysis
- Report Analysis diagnoses errors in a report
- Drill-Down capability by Account Segments, Transactions, Pivot Details
- Budget Write-Back to the General Ledger from F9
- Consolidations over Multiple Companies, Multiple Years and Databases
- Ad-hoc reporting using the Report Wizard
